

Sample Quarterly Performance Report

Mutual Funds & Separate Accounts Only

- Portfolio Summary
- Asset Allocation Summary
- Portfolio Appraisal
- Realized Gains and Losses
- Interest, Dividends and Expenses
- Performance History

Your Personal Wealth Portfolios account makes it easy for you and your advisor to monitor your portfolio's overall results. The Personal Wealth Portfolios Quarterly Performance Report provides timely, easy-to-understand information about your account.

Portfolio Summary

This report provides a snapshot of the Personal Wealth Portfolios account. Key information is summarized on the top including the account registration and account number, the financial advisor's name and telephone number, the selected investment objective and the date of the information included in the report.

Personal Wealth Portfolios

Portfolio Summary

Date of Report

Portfolio Summary

	Market Value	Percentage
Mutual Funds	98,392	36.35 %
Equities	159,402	58.89 %
Cash & Equivalents	12,893	4.76 %
Total	\$ 270,687	100.00 %
Net Invested Dollars (Contributions Less Withdrawals)	\$ 250,000	
Net Change Since Inception (Inception Date)	\$ 20,687	

Portfolio Changes

Portfolio Value at Beginning of Quarter	\$ 249,217
Inflows*	190,906
Outflows*	(7)
Market Fluctuation	19,383
Interest	419
Dividends	5,859
Advisory Fee	(4,183)
Portfolio Value at End of Quarter	\$ 270,687
Net Change	\$ 21,478

* Inflows and Outflows reflect the market value of cash and/or positions deposited into or withdrawn from the account including miscellaneous account expenses.

If you have any questions regarding the enclosed reports, or if your investment objective or financial situation has changed in any way, please contact your advisor. In addition, you will need to make your advisor aware of changes to any specific instructions you have regarding the management of your account. This will ensure that you continue to receive advice that is tailored to meet your specific needs.

The **Portfolio Summary** section summarizes the market value for each type of security held in the account, and indicates the percentage each security type represents out of the total portfolio. You can easily see how much was invested and what that investment is worth today. This information is summarized under the section titled "Net Change Since Inception."

The **Portfolio Changes** section tracks account activity for the previous quarter. "Net Change this Quarter" reflects the account's appreciation or depreciation over the trailing quarter. Account activity is broken down by type (inflows, outflows, market fluctuation, etc.).

Important Information About Your Consolidated Statement

This statement provides a summary of the accounts for which you have requested to receive consolidated information. Each individual account will continue to be managed on an individual basis only. They will not be managed on a consolidated basis. Accounts from different types of advisory programs may be included on the statement. The Consolidated Statement does not replace - and is provided in addition to - the enclosed individual account performance.

Allocation Summary

This pie chart illustrates, on a consolidated basis, how the securities in your accounts are allocated among four asset classes: "Equities," "Fixed Income," "Cash," and "Other." "Other" consists primarily of securities that are unclassified.

The relative size of each allocation is determined as a percentage of the total market value of all accounts combined. If a piece of the pie has a negative market value, that piece will not be included in the total market value, and thus will not be represented in the allocation. Under some circumstances, it may not be possible to provide the pie chart, and the following message will appear, "The Allocation Summary is Unavailable."

Investment Summary

This line graph plots the consolidated market values (dotted line) and the net invested dollars (solid line) for all accounts included on the Consolidated Statement using month-end values. The illustration begins at the first month-end for the account that has been opened for the longest period of time. The changes to the net invested dollars are plotted in the middle of the month.

Under some circumstances, it may not be possible to create the line graph, and the following message will appear, "The Investment Summary is Unavailable." For example, the graph will not be included if the oldest account has not been opened for at least three months, or if some data is unavailable.

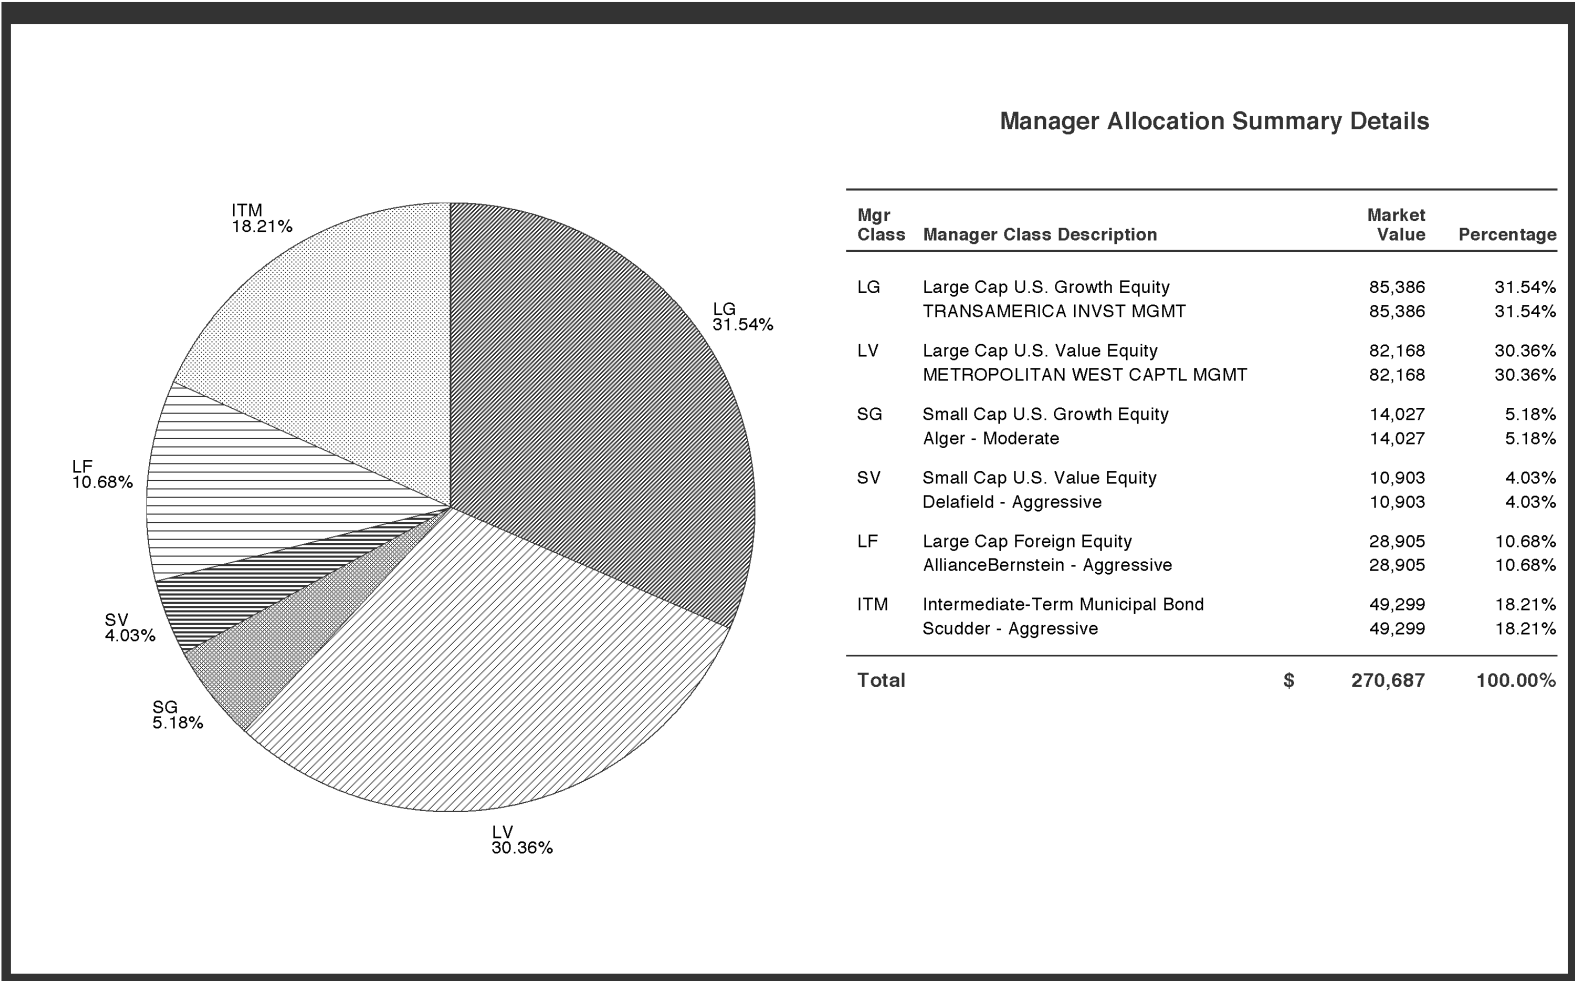

Please contact your LPL Financial advisor with any questions. For your convenience, your LPL Financial advisor's name and telephone number appear on each of the enclosed individual performance reports.

LPL Financial - A Registered Investment Advisor
One Beacon Street, 22nd Floor, Boston, MA 02108-3106
9785 Towne Centre Drive, San Diego, CA 92121

Asset Allocation Summary

This report provides a comprehensive view of the Personal Wealth Portfolios account. It summarizes the asset allocation and categorizes the account’s holdings by asset class.

Manager Allocation Summary
Date of Report

Portfolio Appraisal

This report lists each asset currently held in the account (this includes assets that were either purchased or transferred into the account). Each asset is grouped by security type and may include further categorization by asset class.

Realized Gains and Losses

Whenever assets are liquidated from a Personal Wealth Portfolios account, the sale is recorded in this report. The acquisition date, closing date, number of shares, cost basis information and the amount of the redemption is detailed. The gains and losses are categorized as short- or long-term and sub-totaled by security. Finally, the total amount of the gain or loss is summarized at the bottom.

Interest, Dividends and Expenses

If any asset in the account generates interest or dividends during the previous quarter, the activity is listed on this report. In addition, you can see the dollar amount of the fee that was debited from the account.

Sample 2	8765-4321		Growth with Income		100,000	102,000		
					350,000	372,687		

Important Disclosure Information

This report has been prepared from data believed to be reliable but no representation is made as to accuracy or completeness.

Original purchase price is used as the cost basis in this report if the data was provided by the client. If no such data was submitted, the cost basis is the actual purchase price. For any assets purchased within the account, the cost basis is the actual purchase price. Short-term gains or losses are based on securities held for one year or less. Long-term gains or losses are based on securities held for more than one year.

Returns are expressed as a percentage, are calculated on a time-weighted basis and are presented net of the advisory fee and mutual fund fees and expenses. The deduction of other fees and charges is not reflected in the performance figures.

The LPL Financial benchmark, which may be displayed, is calculated using a weighted average of the indices, in the percentages specified, as noted in the chart below. The LPL Financial benchmark represents the benchmark for the current investment objective for the account. Please keep in mind that the investment objective for the account may have changed over time.

Index	LPL Financial Income with Capitol Preservation Benchmark	LPL Financial Income with Moderate Growth Benchmark	LPL Financial Growth with Income Benchmark	LPL Financial Growth Benchmark	LPL Financial Aggressive Growth Benchmark
3-Month Treasury Bill Yield	10%	7%	5%	5%	5%
Lehmen Brothers Aggregated Bond Index	70%	53%	35%	15%	0%
Russell 3000 Index	20%	40%	60%	80%	95%

Clients should consider the following points when comparing account performance to either the LPL Financial benchmark or other indices that may be displayed. The LPL Financial benchmark is calculated using the month-end value of the index for each day of the month, rather than the actual daily value of the index. The Consumer Price Index is reported on a one-month lag. In addition, several of the other indices, which may be displayed, only publish performance figures monthly. As the account performance is displayed for the actual number of days the account was opened, the client should consider this disparity for the initial period when comparing account performance to the indices and benchmark returns.

Indices and benchmarks are unmanaged and cannot be invested into directly. If you need additional information regarding the indices that may be displayed, please contact your financial advisor.

Report calculations and figures should not be relied upon for tax purposes. For tax advice, please contact your tax advisor.
